Fire Safety in the Workplace

### HEALTH & SAFETY SOLUTIONS FOR YOUR STAFF

To develop staff professionally requires an investment in time and resources. The benefit of this course is that staff are made aware of the relevance of health and safety in their workplace. A combination of practical exercises, theory instruction, workshop formats using different multimedia is used to instruct students in a positive workplace safety culture.

The course fosters a positive attitude to Health and Safety and improves the overall level of safety throughout the organisation

### HEALTH & SAFETY TRAINING BENEFITS

Training involves providing people with knowledge, and then giving them the opportunity to practice or use it. In other words it allows staff to become more skilled and therefore more productive. If workers are simply given the knowledge but not the chance to practice it, the learning process is incomplete.

### PREFERRED ENTRY LEVEL

For students to participate in the course FETAC have stated in their Course Descriptor that students should have a FETAC Level 3 Award or equivalent qualifications and/or relevant life and work experiences

### COURSE CODE

The FETAC Course Code for this Course is C10272
